Emergencies are covered in full

If you have an emergency, you can go straight to hospital. If you need medically-equipped transport, call Discovery 911 on 0860 999 911.

Discovery HomeCare – an alternative to a hospital stay

Discovery HomeCare is a unique home-based nursing service that offers you quality care in the comfort of your own home (see page 27).

How we cover your hospital and related accounts

We cover your hospital account from your Hospital Benefit.

Doctors, specialists and other healthcare professionals we have a payment arrangement with are covered in full for approved procedures in hospital. You benefit from access to the broadest range of specialists, which represents over 90% of our members’ specialist interactions. If you use healthcare professionals that we don’t have payment arrangements with, we will pay at the rate applicable to your chosen plan and you may have a co-payment.
Prescribed Minimum Benefit (PMB) conditions

In terms of the Medical Schemes Act of 1998 (Act No. 131 of 1998) and its Regulations, all medical schemes have to cover the costs related to the diagnosis, treatment and care of:

- An emergency medical condition
- A defined list of 270 diagnoses
- A defined list of 27 chronic conditions

To access Prescribed Minimum Benefits, there are rules that apply:

- Your medical condition must qualify for cover and be part of the defined list of Prescribed Minimum Benefit conditions.
- The treatment needed must match the treatments in the defined benefits.
- You must use designated service providers (DSPs) in our network. This does not apply in emergencies. However even in these cases, where appropriate and according to the rules of the Scheme, you may be transferred to a hospital or other service providers in our network, once your condition has stabilised.

If your treatment doesn’t meet the above criteria, we will pay up to 80% of the Discovery Health Rate. You will be responsible for the difference between what we pay and the actual cost of your treatment.

What is an emergency

An emergency medical condition, also referred to as an emergency, is the sudden and, at the time unexpected onset of a health condition that requires immediate medical and surgical treatment, where failure to provide medical or surgical treatment would result in serious impairment to bodily functions or serious dysfunction of a bodily organ or part or would place the person’s life in serious jeopardy.

An emergency does not necessarily require a hospital admission. We may ask you for additional information to confirm the emergency.

What is the Discovery Health Rate (DHR)

This is a rate set by us at which healthcare services from hospitals, pharmacies and healthcare professionals are paid.
There is no overall limit for your hospital cover. This is how we cover your hospital account and accounts from your admitting doctor, anaesthetist or other approved healthcare professionals (related accounts).

**Hospital cover**

- Conservative back and neck treatment, adenoidectomy, myringotomy (grommets), tonsillectomy: R2 800
- Arthroscopy, functional nasal procedures, hysterectomy (except for pre-operatively diagnosed cancer), laparoscopy, hysteroscopy, endometrial ablation: R6 750
- Colonoscopy, sigmoidoscopy, proctoscopy, gastroscopy, cystoscopy: R3 600
- Nissen fundoplication (reflux surgery), spinal surgery (back and neck), joint replacements: R13 850

Cover for dental treatment in hospital

Severe Dental and Oral Surgery

The Severe Dental and Oral Surgery Benefit covers a defined list of procedures, with no upfront payment and no overall limit. This benefit is subject to authorisation and the Scheme's rules.

Other dental treatment in hospital

You need to pay a portion of your hospital or day-clinic account upfront for dental admissions. This amount varies, depending on your age and the place of treatment.

We pay the balance of the hospital account from your Hospital Benefit, up to 100% of the DHR. We pay the related accounts, which include the dental surgeon’s account, from your Hospital Benefit, up to 100% of the DHR. On the Classic Plan, we pay anaesthetists up to 200% of the DHR.

For members 13 and older, we cover routine conservative dentistry, such as preventive treatment, simple fillings and root canal treatment from your available day-to-day benefits.

Dental limit

There is no overall limit for basic dental treatment. However, all dental appliances, their placement, and orthodontic treatment (including related accounts for orthognathic surgery) are paid at 100% of the DHR from your day-to-day benefits, up to an annual limit of R15 750 a person.

If you join the Scheme after January, you won't get the full limit because it is calculated by counting the remaining months in the year. The overall Above Threshold Benefit (ATB) limit applies.

Suite of patient management programmes

**DiabetesCare**

Our DiabetesCare programme, together with your Premier Plus GP, will help you actively manage your diabetes. A Premier Plus GP is a network GP that has contracted with us on quality-based metrics.

The DiabetesCare programme is based on clinical and lifestyle guidelines. The programme gives you and your Premier Plus GP access to various tools to monitor and manage your condition and to ensure you have access to high-quality coordinated care.

You and your GP can track progress on a personalised dashboard displaying your unique Diabetes Management Score. This will help to identify the steps you should take to manage your condition and stay healthy over time.

The programme also unlocks cover for valuable healthcare services from healthcare providers like dietitians and biokineticists.

Any Discovery Health Medical Scheme member registered on the Chronic Illness Benefit for diabetes can join the DiabetesCare programme.

You must use a Premier Plus GP to manage your condition to avoid a 20% co-payment.

**How to join**

Speak to your Premier Plus GP or visit www.discovery.co.za to find a GP and get more information.

**HIVCare**

When you register for our HIVCare Programme, you are covered for the care that you need. You can be assured of confidentiality at all times. You need to get your medicine from a DSP to avoid a 20% co-payment.

**Compassionate care**

The Compassionate Care Benefit gives you access to holistic home-based end-of-life care up to R52 750 on all other plans for each person in their lifetime.
OncologyCare

If you’re diagnosed with cancer and once we have approved your cancer treatment, you are covered by the OncologyCare Programme. We do not limit your cancer treatment costs. We cover the first R200 000 of your approved cancer treatment over a 12-month cycle in full. If your treatment costs more than the cover amount, you will need to pay 20% of the additional costs. Cancer treatment that is a Prescribed Minimum Benefit (PMB), is always covered in full.

All cancer-related healthcare services are covered up to 100% of the Discovery Health Rate (DHR). You might have a co-payment if your healthcare professional charges above this rate.

Advanced Illness Benefit

Members with cancer have access to a comprehensive palliative care programme. This programme offers unlimited cover for approved care at home.
You get screening and prevention benefits

Preventive screening is important to ensure that medical conditions are detected early

As a Discovery Health Medical Scheme member, you have access to screening and prevention benefits at any one of our wellness providers that cover the following:

**Screening for adults**

This benefit covers certain tests at one of our wellness network providers, like blood glucose, blood pressure, cholesterol, body mass index and HIV screening.

We also cover a mammogram every 2 years, a Pap smear once every 3 years and a PSA test (prostate screening) each year.

**Screening for kids**

This benefit covers growth assessment tests, including height, weight, head circumference and health and milestone tracking at any one of our wellness providers.

---

**If you meet our clinical entry criteria you get access to the following additional tests:**

- Rapid HbA1c glucose test
- Lipogram cholesterol test
- Breast MRI or mammogram and once-off BRCA testing for breast screening
- Pap smear for cervical screening
- Seasonal flu vaccine for members 65 years or older or registered for certain chronic conditions

The clinical entry criteria are available on [www.discovery.co.za](http://www.discovery.co.za)

---

**How we pay**

These tests and consultations do not affect your day-to-day benefits as they are paid from the Hospital Benefit. Consultations that do not form part of PMBs will be paid from your available day-to-day benefits.

Cover depends on the plan you choose. To find hospitals or providers in our network, visit [www.discovery.co.za](http://www.discovery.co.za)
You get cover for day-to-day medical expenses

Medical Savings Account (MSA)
We pay your day-to-day medical expenses like GP and specialist consultations, everyday medicine, radiology and pathology from the available funds in your MSA. Any unused funds will carry over to the next year. When you run out of MSA, you will have to pay for some healthcare expenses from your pocket before you reach your Annual Threshold.

Self-payment Gap (SPG)
When you run out of MSA, you will have to pay for some healthcare expenses from your pocket before you reach your Annual Threshold. This temporary gap in cover is called a Self-payment Gap (SPG). You must still send claims to us so that we know when to start paying from your Above Threshold Benefit (ATB). More information on the SPG is available on www.discovery.co.za.

Day-to-day Extender Benefit (DEB)
We extend your day-to-day cover through the Day-to-day Extender Benefit (DEB) (previously known as the Insured Network Benefit) when you have spent your annual MSA allocation and before you reach your Annual Threshold, where applicable. By simply using healthcare providers in our networks, you will be covered in full for a unique set of essential healthcare services.

Above Threshold Benefit (ATB)
Once all the claims you have sent to us add up to the Annual Threshold, we pay the rest of your claims from the Above Threshold Benefit (ATB), at the Discovery Health Rate or a portion of it. Your ATB is limited.
Your cover is extended through the Day-to-day Extender Benefit

When your annual MSA allocation has been spent, you get extra cover for a set of essential healthcare services in our network

**GP consultations**
We cover you for face-to-face and video call GP consultations if you use a GP in the Premier Plus Network. A Premier Plus GP is a network GP that has contracted with us on quality-based metrics. We also cover GP consultations once your limited ATB has been reached.

**Kid’s casualty cover and video call consultations with paediatricians**
On the Classic Plan, kids younger than 10 years have access to two casualty visits a year and video call consultations with a paediatrician who we have a payment arrangement with.

**Blood tests**
On the Classic Plan, you have full cover for blood tests at one of our partner pharmacy clinics.

**Defined list of external medical items**
You have cover for external medical items from the defined list of items when you use one of the suppliers in our network. This benefit is subject to the external medical items limit.

**Antenatal consultations**
On the Classic Plan, you have access to antenatal consultations and 2D pregnancy scans, provided you use a gynaecologist/obstetrician who we have a payment arrangement with.

Cover depends on the plan you choose. To find hospitals or providers in our network, visit [www.discovery.co.za](http://www.discovery.co.za)

We also pay these amounts when you reach your Above Threshold Benefit. Over-the-counter medicine, vaccines and immunisations do not add up to your Annual Threshold and are not paid from ATB. We add up the amount to the benefit limit available. If the claimed amount is less than the DHR, we will pay and add the claimed amount to the Annual Threshold. Claims paid from your Day-to-day Extender Benefit (DEB) will not accumulate to the Annual Threshold.

Some day-to-day healthcare services have limits. These are not separate benefits. Limits apply to claims paid from your MSA, DEB (where applicable), claims paid from your pocket and limited ATB. We pay day-to-day benefits up to the Above Threshold Benefit limit or up to the limit that applies below, whichever you reach first.

You can also use your MSA for newborn screening to detect metabolic disorders.

This cover is for a period of 90 days from your departure from South Africa.
